

CARNEGIE INSTITUTION OF WASHINGTON

DEPARTMENT OF GENETICS

COLD SPRING HARBOR, LONG ISLAND, N. Y.

January 12, 1959

Professor Joshua Lederberg
Genetics Building
University of Wisconsin
Madison 6, Wisconsin

Dear Joshua:

We have been able to locate the DIS issues you are missing, and are mailing them to Stanford. We will also put the name of your Department on the mailing list so that you will receive future issues.

As far as the Carnegie Year Book is concerned: If you wish to have the full volume, you should get in touch with Mrs. G. Philip Bauer, Carnegie Institution of Washington, 1530 P Street, N.W., Washington 5, D.C. She is in charge of the Office of Publications, which handles the Year Book. Since the number of copies for free distribution is quite limited and is restricted to university libraries, I am not certain that they would be ready to place a departmental library on the mailing list. However, in case they cannot, we will be very glad to place your library on our mailing list to receive the reprints of the section of the Year Book that deals with this Department. Let me know about this.

With best regards,

Sincerely yours,

M. Demerec
